The Faculty of Sahitya & Sanskriti imparts knowledge in the area of Sahitya, Puranetihas and Prakit. In addition to this, research work is done in Shastraic subjects under the supervision of the members of the faculty. Various cultural programmes such as drama, debate, Kavi Sammelan, Speech Competitions, and Slokanyakshari, etc. have been organized during the year. The teachers of the faculty participated in various workshops, seminars and symposia at the national level. The Faculty of Sahitya and Sanskriti has conducted Youth festival with the help of other departments of the Vidyapeetha.

Department of Sahitya, Puranetihas and Prakit

Sahitya is one of the major subjects of the Department of Sahitya, Puranetihas and Prakit. Shashtri and Acharya in Sahitya are very much in demand and almost double the number of applications from the students are received against the sanctioned seats, considering the fact that general universities and affiliated colleges teach this subject with a view that employment prospect is more for students of Sahitya.

Puranetihas is one of the specialized subjects opted by the students. Puranas are the compendium of many branches of learning. Puranetihas is one of the major subjects of the Faculty which provides knowledge about Indian tradition, social and geographical set up embedded in the Puranas. The in-depth study of the Puranas can create a strong impact on various fields of Indian tourism, Indian medicine, Indian cuisine, Indian narrative tradition and Indian behavioural & cultural patterns, which are of great cultural interest to people from all over the world.

Prakrit Language has had pride of place amongst ancient languages. Earlier it was the language of daily communication. The famous Acharyas of Jain Philosophy delivered their sermons in this language. For a better understanding of this language, the scholars undertake the studies of the books like Prakrit Prakash, Pravachansar, Samaysar, Gathasaptshati, etc.

Prakrit is not taught in any of the Sanskrit Universities. The teachers of this subject have also been invited by the foreign countries to deliver lectures on Prakrit literature and Philosophy.

Sankhya Yoga

Sankhya Yoga is an important Vedic knowledge of Indian philosophy. With the special interest shown in Indology all over the globe, courses in Sankhya Yoga are very relevant in modern era of knowledge. In this twin subjects, Sankhya and Yoga, the emphasis is on metaphysics. They are complimentary to each other in the sense that Sankhya analyses the concept of Prakriti (matter) and Purusha, whereas yoga lays greater emphasis on indepth psychology and believes in the elevation of human soul by following the ancient means of realizing it. Sankhya, the ancient tradition enunciating the theory of Sattva, Rajas and Tamas, is correlated with the laws of motion and inspires the reader to understand quantum physics. The Department conducts six-months Yoga Certificate and one-year PG-Yoga Diploma programmes under the self-finance scheme.

Jain Darshan

Considering the rich knowledge with respect to philosophical speculations contained in the Jain texts, there was a long felt need for a separate department for in-depth study of the tenets of Jain system of thoughts. It is a unique subject of its kind in India. This subject is being taught with the main objective of making the Vidyapeetha a representative of Indian tradition.

Jain literature is a vast field and the cultural materials in it are of immense importance. Jain Darshan as a source of cultural history is as important as Vedic or Buddhist studies. It is all in Sanskrit, Prakrit and Hindi languages. Jain philosophy has a lot in common with Hindu philosophy and it has its own peculiarities too. Atomic theory, Karmic theory, theory of Anekantvad, Syadvad, Nayavad, theory of Ahimsa, spirituality, methods of meditation and non-violence are useful in today's world. The faculty members concentrate on teaching and research. Since its inception, the department of Jain Darshan has contributed in a major way to understand the views projected in other systems of thoughts.

Sarva Darshan

Sarva Darshan covers the knowledge in various texts belonging to India's different philosophical orientations. Exposure to all systems of philosophy helps the students to specialize in more than one field of Indian philosophy and to carry out interdisciplinary studies. The faculty members have also taken up many research projects. The teachers of this department are specialized in different Indian philosophical thoughts. The students completing the course in Sarva Darshan find it useful to get into Indian Administrative Services. Alumni of the department have also been appointed as teachers in various educational institutions in Haryana, Rajasthan and other places. In order to give a new dimension to the existing curriculum, the department has proposed some important areas of western philosophy, especially Greek and Chinese philosophy, to be included in the regular course work. It is a matter of concern for the department that the Kashmir Shaiva Darshan is vanishing from the academic arena. Knowledge and research in this branch of philosophy are necessary for the society. The department proposes to collect, edit and publish the summary of all texts in this field in a single volume.

Department of Vedanta

The Department of Vedanta offers focused and in-depth study of Advaita Vedanta and Vishistadvaita Vedanta. Both are popular systems of thought in Indian Philosophy. The Department often functions in close collaboration with other departments of the Faculty of Darshan. The teachers of the Department, in addition to their regular research and teaching work, have attended seminars conducted in Mutts and are invited to participate in shastrartha, symposia and workshops at prominent academic gatherings.

Vishishtadvaita Vedanta is a specialized traditional subject which was taught only in South India. The Vidyapeetha started this Department in the Ninth Plan in order to bridge this gap. The Department's major activity is to conduct higher research and organization of debates, seminars and symposia, apart from regular teaching work. Textual interpretations and comparative analysis of major systems of Vedanta are some of the contributions of the Department during the year. The Department has prepared a proposal to edit books that are out of print, with annotations and bring out Hindi translations of those texts. Research interests of the Department assign priority to some major problems related to other systems of thoughts with reference to Vishishtadvaita Vedanta.
